Roadwork Ahead!

The City of Avondale, in coordination with the City of Goodyear, awarded a contract to Visus, Inc. to improve Van Buren Street between Dysart Road and Central Avenue. Improvements will include removing the existing asphalt and repaving the westbound and center turn lanes from Dysart Road to Central Avenue. An asphalt seal will be installed on the eastbound lanes to re-surface the pavement.

Construction is scheduled to begin in early April and is slated for completion in May 2012. The majority of the work will take place at night in an effort to reduce traffic congestion and reduce the impact to businesses. Nighttime work will take place between the hours of 9 p.m. and 4 a.m., Sunday through Thursday; however some daytime work may be necessary.

Traffic Restrictions

During the improvement project, expect temporary traffic lane restrictions. However, access will be maintained for residents, businesses and emergency vehicles. Allow yourself extra time to get where you are going as there may be delays. Thank you for your assistance and cooperation.

Think Safety First

Please obey all traffic control barricades and signs including construction zone reduced speed limits. Please watch for flag persons and drive cautiously when traveling through the construction work zone. Do not move barricades or traffic signs as they are in place for your protection.

Thank you for your patience and cooperation.

Your Construction Info Resource

If you have questions, concerns or need more information about the project in your community, please call the 24-hour construction hotline at **(602) 264-6416**. We are here to answer your questions and assist you in any way that we can.
